"Public Law 391 - 79th Congress"

As a result of my telephonic discussion with Mr. Naylor of the Chief of Finance Office, War Department, in regard to letter of 15 July 1946 which presented the question as to the coverage provided by general provisions of "Public Law 391 - 79th Congress", and the applicability thereof with respect to the reimbursement activities of SSU funds which were transferred from the former OSS, the following was suggested:

1. Since the outstanding reimbursement request on hand, both to and from the Navy Department were of a relatively small amount, that no action would be taken at the present time.
2. All applicable reimbursement billing to the Navy Department would be cancelled in accordance with the law.
3. All applicable reimbursement billing from the Navy Department would be returned for their cancellation in accordance with the law.
4. In the event that the Navy Department does not comply the matter should again be brought to the attention of Mr. Naylor.
